

## IT'S ONE THING TO DROP A SEMITONE. IT'S ANOTHER TO DROP YOUR WHOLE SCORE.

You won't if you use The Black Folder. Like our stylish ECBF-CP version shown below.

Its rear-mounted hand strap lets any singer carry a tune comfortably, while its detachable bottom strap and clever elasticized retaining cords (or optional ring adaptors for hole-punched music) add further insurance against unscheduled scooping.

A masterwork of design, it comes with a handy pencil holder for rehearsal as well as side pockets for surplus music. And to help keep you as informed as your audience during a performance, a transparent pocket puts

your concert program right before your eyes.

To find your nearest distributor, or to see (and order) your favourite Black Folder version online, visit us today at [musicfolder.com](http://musicfolder.com). Or contact us at

one of the numbers below. You should.

After all, good singing requires proper support.

*Straps keep music and folder from straying, while elasticized cords securely retain scores. Transparent pocket is perfect for holding concert programs (ECBF-CP version shown).*
